RETURNS IN STATE SLOW COMING IN

Both Manning and Allen Claiming Nomination For Asseciate Justice.

LEE AND GRAHAM BOTH CLAIM

Fight Will Be Acute—Result in Several Congressional Districts is Doubtful—Maj. Stedman Leading in Fifth—Other Notes.

(Special Star Telegram.)

Raleigh, N. C., June 27.—Returns from Saturday's primaries are unusually slow in coming in. Best estimates available here tonight show that Corporation Commissioner H. C. Brown is assured of nomination to succeed himself as successor to the late B. F. Aycock, his opponent L. C. Bagwell, having developed very little strength. The contest for the western seat on the commission narrows down to W. T. Lee, Waynesville, and A. W. Graham, Oxford, and friends of both are claiming assurance of the nomination.

Chief Justice Walter Clark and Associate Justice Plat D. Walker having no opposition, their nominations are assured, getting the endorsement of all the primaries.

In the contest for Associate Justice in which Manning and Superior Court Judge W. R. Allen are running for a seat on the Supreme Court bench, vacated by Justice Connor and being filled through appointment of the Governor by Judge Manning, the returns show such a close race that the friends of both are claiming assurance of the Charlotte nomination However, best informed politicians here credit Judge Allen with leading in the race. This contest promises the hardest fight of the State convention in Charlotte. Superior Court judges certainly nominated are Justice, in the thirteenth district; Frank Daniel, in the sixth; Cook, in the fourth; Peebles, in the second; Long, in the tenth; Ward, in the first; Ferguson, in the sixteenth. For Congress re-nominations assured are Small in the first, Kitchin in the second, E. W. Pou in the fourth, R. N. Page in the seventh, E. Y. Webb in the ninth. Unsettled contests for Congressional nomination continue in the third district between Duffy, Hood, Faison and Robinson with a strong possibility of Congressman Thomas, who did not make a race for the nomination, to get it as the outcome of a contest. In the fifth district the contest is unsettled between Chas. M. Stedman, Geo. A. Mebane, B. S. Royster, E. B. Jones. In the sixth there is an unsettled race between Congressman Godwin, Clark, of Bladen; McKinnon, of Robeson; Cook, of Cumberland, and McClammy, of New Hanover. In the eighth an unsettled contest involving Murphy, of Rowan; Doughton, of Allegheny; Caldwell, of Iredell, and Gwaltney, of Alexander, will require the convention to fight about. Another Congressional contest that the district will have to fight out is in the tenth where Gudger is believed to be leading in the contest with W. J. Cocke, F. R. Hewitt, S. S. Gallert and Walter G. Moore opposing him.

From Manning Headquarters.

Durham, N. C., June 27.—Senator H. A. Foushee, Judge Manning's manager, when seen tonight and asked concerning Manning's nomination replied: "Additional reports confirm my statement that Judge Manning will be nominated by a safe majority. I read a statement of Col. Dortch, Allen's manager, in the morning papers of 34 counties claimed by him to be two-thirds to all for Allen. I say Manning will carry three of them by a safe majority, will break even in six, will get more than one-third in five others of eleven counties, which Dortch says are equally divided. Authentic reports show Manning gets 80 per cent. in 70; in another 66, in a third 70, in a fourth and fifth and five per cent. in fifth. It will be noticed Allen's manager greatly overestimated Allen's strength in nearly half the counties named by him. It is significant that he is absolutely silent as to 53 counties more than half of the State and in a number of 46 counties named by him, no vote has been or will be taken before Saturday."

In The Fifth.

Greensboro, N. C., June 27.—With four counties to be heard from, Maj. C. M. Stedman has 100 votes in the Congressional convention, a good lead over the other candidates. It will require 203 votes to nominate. Nothing definite as to the exact strength of the several candidates until the county convention next Saturday. The Congressional convention will be held here July 5th.

Tenth District.

Asheville, N. C., June 27.—Returns from the 13 counties of the tenth congressional district indicate that J. M. Gudger is far in the lead of the other four candidates for the Democratic nomination. Gudger claims nomination on first ballot while W. J. Cocke, the next highest candidate, claims Gudger lacks nearly 40 votes Gudger had a plurality of 415 over Cocke in Buncombe where both live. Walter E. Moore carried Jackson county and will have between 40 and 50 convention votes. Gallert, of Rutherford, and Hewitt, of Buncombe, will have less than 30 votes each. The nomination will be a convention fight here July 12th.

SHOOTING MARRED CUBAN CONGRESS

One Congressman Attempts to Kill Another and an Uproar Follows.

BULLET GRAZED PARTY LEADER

Stirring Scenes During the Session Yesterday—Believed to be Preliminary to a Bloody Factonal Feud.

Havana, June 27.—A sensational attempt to kill Antonio San Miguel, Congressman from Pinar del Rio and editor of La Laucha, was made in the lobby of Congress this afternoon a few minutes before that body was to open its session. Congressman Manuel Lores, of Oriente, was the assailant. The single shot he fired went wild, but almost hit another Congressman standing near.

San Miguel was standing in the lobby awaiting the opening of the session when he was approached by Lores, who had several friends with him. Lores whipped out a revolver and fired at San Miguel at short range. The bullet missed its mark, but grazed the head of Congressman Antonio Gonzales Lanuza, leader of the Conservative party, who was standing behind San Miguel. The latter drew a pistol, but before further shots could be exchanged the combatants were separated.

The attempted assassination created a great commotion and it was some time before quiet could be restored. The session of the House then proceeded. It is believed that a duel between San Miguel and Lores is inevitable.

The cause of the murderous attempt was the attitude of Congressman San Miguel in denouncing editorially as a colossal fraud the proposition to exchange Villanueva station of the United Railways, on the Prado, for the government's arsenal lands on which scheme Congressman Lores and his colleagues are ardent supporters. When the question came up in the House on June 15th, there was a violent scene and pistols were drawn, whereupon further discussion of the project was postponed until today. It had been placed on today's calendar but because of the shooting its discussion was further postponed. The attempt to kill Congressman San Miguel, when it became generally known, caused excitement throughout the city. Prediction is general that the shooting is only the preliminary of a bloody factional feud. Congressman Lores was not arrested on account of his Congressional immunity.

NO SHIP SUBSIDY LOBBY.

Committee Found No Corruption on the Part of Congressmen.

Washington, June 27.—After three months of hearing, the House Committee to investigate charges reflecting on members of Congress in connection with ship subsidy legislation, closed its Washington sessions today, with an unofficial announcement to counsel that it had found no corruption on the part of any member of Congress.

Two Western newspaper editors, J. A. O'Mahoney, of Indianapolis, and W. A. Shaw, editor of the "Texas Farmer," testified today that they believed there was a lobby here, but neither produced any definite details.

Mr. O'Mahoney said that while he was a Washington correspondent over a decade ago, he understood that one Don M. Smith and "a man named Gaddes" by whom counsel thought he meant the late Dr. Glavis, a steamship representative, had "lobbeyed" here for the foreign lines. He told of "Gaddes" submitting a story to a Philadelphia correspondent long since dead, which the latter told the steamship man was "too apparent" to use. He had heard that ten men were on the pay roll of what he called the "steamship's combine," but he could suggest only these two names and when asked whom he meant by "venal, subsidized newspapers," said newspapers were subsidized by ther advertisements. The Committee rebuked Editor Shaw for his allegations that there were steamship representatives in Congress inasmuch as such a "slander" was, they said, unsupported by any details whatever.

Norfolk, Va., June 27.—With a crew from the New Jersey naval reserves on board, the monitor Tonopah left the navy yard early today bound for the home station of the New Jersey naval militia at Hoboken, N. J. She will be used as a practice vessel for the regular cruise of the naval reserves of that State.

J. W. WADSWORTH A SUICIDE.

Charlotte Citizen Shoots Self—Brother Went Same Route.

Charlotte, N. C., June 27.—James W. Wadsworth, one of the wealthiest and best known citizens of this city, committed suicide this afternoon by shooting himself. The excessive use of stimulants and worry over business matters were given in a statement issued by the family as the cause of the rash act.

A brother, Charles Wadsworth, took his life in a Greensboro, N. C., hotel last year.

POLITICS IN ORDER AT SAGAMORE HILL

Roosevelt Discussed Insurgency With Senator La-Follette Yesterday

OTHER INSURGENTS INVITED

Wisconsin Senator Pleased With Interest Shown by the Colonel and Result of Conference—Planned Western Tour.

Oyster Bay, N. Y., June 27.—Robert M. LaFollette, United States Senator from Wisconsin, and the father of the Republican Insurgency, spent two hours this afternoon talking politics with Theodore Roosevelt. He left Oyster Bay wearing a broad smile.

Senator Elmer Burkett, of Nebraska, another out-and-out Insurgent, is coming to Sagamore Hill after Col. Roosevelt returns from Boston. He, too, will talk politics.

Representative Madison, of Wisconsin, irreconcilable Insurgent and ardent defender of Gifford Pinchot, as a member of the Ballinger-Pinchot Congressional Investigating Committee, will be at Sagamore Hill probably late this week. His theme will be politics.

Senator LaFollette arrived early in the afternoon. He had with him G. E. Roe, a New York lawyer, who was formerly his law partner. Col. Roosevelt's chauffeur was waiting for them and whisked them away to Sagamore Hill.

The Senator had pulled his hat down over his eyes, and tried to escape unseen. But he was caught fairly at it by a group of newspaper men who saw the Roosevelt automobile. They tackled him on suspicion, although nobody recognized him for his hat hid his famous pompadour.

"Not a word," he said, "I'm going to Sagamore Hill, but I don't want a word said about it." When he returned just in time to catch a train for New York he looked like a school boy who had just won a meal. He was smiling his most expansive, persuasive smile. "It's all right, boys," he cried jovially. "The Colonel says I may talk to you." The train pulled out and so the group of interviewers hopped on with the Senator and rode on to the next station.

"Did we talk politics?" he replied to the first question. "We did," and he emphasized the affirmation.

"We talked of the campaign of the present session of Congress," he continued, "from the attitude of those members of the Republican party whom the newspapers are pleased to call Insurgents."

"Can you go into details?"

"No, I prefer that they come from Sagamore Hill. I am very much pleased with the result of my visit with Col. Roosevelt, very much pleased, indeed."

The Senator paused for a moment, recalling the happenings of the afternoon. Suddenly the smile left his face for the first time and he said impressively: "I want to tell you that Col. Roosevelt is the greatest living American, and," he added slowly and significantly, "he is in fighting trim!"

An hour later the Colonel received the interviewers, who told him what Senator LaFollette said about him and their meeting. The Colonel talked as though he liked it. "I think there is nothing I can add to what the Senator has said," he commented.

Speculating among Oyster Bay politicians is keener than ever because of today's occurrences. One story going the rounds is that the insurgents have come and seen, but have not conquered. Yet there is another group of positive ones who insist that the Colonel has shown clearly by his acts that he is veering toward the radicals. All agree, however, that it is entirely a matter of opinion. When Col. Roosevelt received the interviewers he was standing on the side of the hill which slopes down from his home. One of a group of four thickly clustered trees he had chopped half through.

"Wait just a moment, please," he

The Gore Bribery Charge Will be Long and Tedious

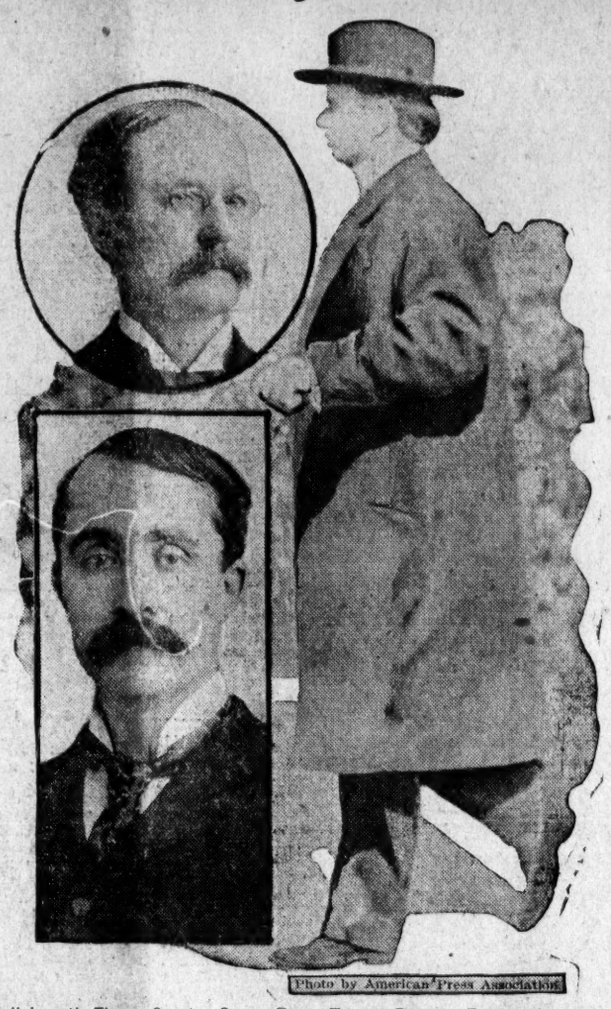

Photo by American Press Association

Full Length Figure Senator Gore.: From Top to Bottom, Former Senators John M. Thurston, of Nebraska, and C. I. Long, of Kansas.

Washington, June 27.—The Senate committee created to investigate the legislation concerning Indian contracts, discussed the matter at considerable length today and tried to frame its plans, but made little headway. The time and place of hearing and the method of procedure will be determined later.

The committee announced today that it will act as promptly as circumstances will permit, and that it will make a thorough investigation within the limits of the Hughes' resolution. The scope of the Senate investigation is limited to whether any Senator during his term of office has been interested in or connected with legislation affecting the approval of Indian contracts, or has received anything because of such interest, and whether any improper attempts to prevent or procure the passage of the bill affecting the approval of Indian contracts have been made at the session of Congress closed.

The committee also announced that it appears clear that Senator Gore, of Oklahoma, who sprang the sensation in the Senate, does not himself charge any Senator with being interested in any of these contracts, but simply stated that this charge was made to him by another person.

The House committee created to investigate the contract matter, with a broad scope, will not meet in Washington if at all, until after its meeting in Oklahoma City, the first week in August.

J. F. McMurray, of Macalester, Okla., the attorney about whose contracts the whole incident involves, his probable fees being variously estimated at from $3,000,000 upward, will submit a statement to the committees setting forth that he has done nothing but what is legal and proper and reviewing the whole case.

A BILLION DOLLAR CONGRESS

Congress Again Passed High Water Mark in Expenditures—Democratic and Republican Claims With Respect to Session.

Washington, June 27.—Democratic claim—Congress at the session just closed again passed the billion dollar high water mark.

Republican claim—Actual probable fixed charge against the revenue during the fiscal year 1911, 0893,120,761.

Both parties agree—Appropriations for expenses of the government made during the past session aggregate $1,027,133,446.

These contentions epitomize the annual review of National appropriations and expenditures, made public today by Chairman Tawney, of the Appropriations committee of the House, and Representative Livingston, of Georgia, ranking Democratic member of that committee. Mr. Tawney's fixed charge statement is based on deducting from the aggregate the authorizations which carry no appropriations; Panama Canal cost which bond sales will pay for, $20,000,000 for reclamation projects, which an issue of indebtedness certificates will cover, and deficiency appropriations and miscellaneous acts for payment of claims and other special matters expendable the present fiscal year, instead of the next.

Mr. Tawney asserted that a summary of the constructive legislature of the first session of the b st Congress constitutes a record of accomplishment surpassing in importance any previous session in the history of Congress. Mr. Livingston denounced what he called a large increase on account of public expenditures, an increase of the public debt, "half a billion dollars spent for militarism and the treasury drained for army and navy."

Mr. Tawney credited the executive administration, by careful preparation of its estimates to Congress, with saving a great many m..lion dollars and declared that continuance of such care in the future would avoid reckless expenditures and show that the legislative branch is not wholly responsible for extravagance.

Mr. Tawney declared there was a substantial reduction in current military expenses while Mr. Livingston asserted that under the reclamation issue and naval appropriations, "we have a policy that stands for interest-bearing bonds issued against the humble homes of the sellers and the lavish handing out of millions upon tens of millions of dollars raised by onerous taxation to satisfy the greed of shipbuildings and armor plate contractors and to maintain a National policy of pomp and spendor."

Mr. Tawney figured that the total deficiencies appropriated for the last session are less by $7'587,654 than those of the previous session and $11,825,789 less than the average annual deficiencies since the Spanish War. Mr. Livingston, comparing the four years of Roosevelt's term with the last four years of Cleveland's administration, said there was "nearly $4,000,000,000 for four years of Republicanism as compared with less than half that sum for the same period by a Democratic President."

E. E. POWELL NOW ON TRIAL

Halifax Tragedy Being Heard in Warren Superior Court—Plea of Insanity—Daughter Testifies.

(Special Star Telegram.)

Warrenton, N. C., June 27.—Rapid progress is being made in the case of State against E. E. Powell for the murder of Policeman Chas. W. Dunn, of Scotland Neck, on March 4th, last, in a wholesale shooting in which State Senator E. L. Travis and Representative A. P. Kitchin were seriously injured.

Little difficulty was experienced in the selection of a jury from the regular panel and a special venire of 150 men. On the jury was chosen one negro.

At the afternoon session the State rested after introducing several witnesses to disprove the plea of insanity which is the sole defense.

Miss Alice Powell, a daughter of the defendant, was the witness introduced by the defense and she was on the stand when court adjourned this afternoon and will probably be on

MURDERER OF TWO DEFIANT TO END

Desperado Finally Killed After Fearful Fight With Militia.

FOUR PERSONS ARE VICTIMS

Barricaded Himself in His Home and Shot at Soldiers—Received Many Wounds From Volleys Fire by Militia.

Irwinville, Ga., June 27.—Fanatically defiant even while the shadows of death closed around him and volley after volley from the new Springfield rifles of two State militia companies made a sieve of the walls of his humble home, W. H. Bostwick, the white desperado, who observed his last Sabbath day by the murder of two officers of the law and the serious wounding of three others, paid the penalty of death shortly after 5 o'clock this morning.

He succumbed to many wounds received from the volleys fire into the building early in the night by a mob of infuriated citizens or from those of the military which began an attack after 4:30 o'clock this morning. Almost at the same moment Sheriff J. P. McInnes, of Irwin county, who was wounded yesterday while making a desperate attempt to remove a wounded fellow from the rang of Bostwick's deadly fire, expired. James Gill, another officer, was added to the list of wounded during the early morning fusilade, but it is believed that he will recover.

The casualties in the battle with W. H. Bostwick, the Georgia desperado are as follows: Dead—J. P. McInnes, sheriff of Irwin county; Steve Davis, chief of police of Ocilla; Deputy Sheriff Shemeld, Irwin county; W. H. Bostwick, victim of shots fired into his home.

The Injured—James Gill, seriously wounded; Deputy Sheriff T. C. Bass, arm broken, and shot in abdomen; Deputy Sheriff Wyatt Tucker, injuries slight.

Surrounded by his six little children whom he held prisoners almost to the end of the siege, Bostwick, who had declared his intention of dying rather than submit to arrest on the charge of atempt to murder his brother-in-law, fought the battle to the last ditch. Knowing that death was near, the desperate man finally allowed the children to leave the house, but they would not reveal one incident of the night to the military officers.

Captain Charles A. DeLang, commanding the Fitzgerald guards, upon arriving at Bostwick's home, first called upon Bostwick to surrender, offering him protection from the mob which had gathered, but the demand was stoutly refused, even though accompanied by a threat to take the besieged man dead or alive. The officer then demanded that the children be allowed to leave the house, but Bostwick again refused.

Captain DeLang ordered his men to fire a volley into the roof of the house, following which another demand for surrender and release of the children was made upon Bostwick, who replied with a shot from one of three weapons with which he was armed. Then came another volley from the solders which caused Bostwick to ask that the lives of the children be not endangered. The six children then left the house and were taken in charge by the soldiers.

The children being taken to a place of safety, Captain DeLang again demanded that Bostwick surrender, but the only reply was a shot from the besieged man. Then the soldiers fired a volley in the lower portion of the house. A moment later officers observed that a shingle had been removed from the room, this probably being done by Bostwick in order to fire to better advantage. A hail of lead was thrown into the roof, followed by a thud which indicated that Bostwick had fallen or jumped to the floor. Observers then called attention to the fact that an object was seen moving through a hole in the floor and a volley was fired in that direction. A rush of the troops was then ordered, the belief being that Bostwick had been injured, but this was stopped by a shot from the building which struck James Mill.

DeLang's men then fired into the building several times. Several men attempted to enter the building, but were greeted by a final shot from Bostwick. The Albany company then appeared on the scene and a rush was made upon the building from all directions. The doors were broken open and Bostwick was found upon the floor, and, although he had passed the point of resistance and could not even speak, the expression on his features was one of death defying determination. Death claimed the desperado shortly after the final rush of the troops.

The Sabbath day tragedies and the battle scene occurred four miles from this vollage. In the crowd that gathered around the besieged home were the most prominent women of the community.

Immediately following Bostwick's death a coroner's jury was empannelled to investigate the tragedy. The verdict was that Bostwick killed himself in order to prevent his capture. Whether he died from self inflicted wounds, received the wound during the fight with citizens, or succumbed to the fire of the Springfields may nev-

LIKELY GODWIN ON FIRST BALLOT

Result Depends Largely Upon Brunswick's Mass Convention Tomorrow.

ONLY 15 VOTES REQUIRED

Counting New Hanover and Cumberland Solid for McClammy and Cook, Harnett Man Lacks Few of Nomination.

Upon the face of the returns thus far received from the counties of the Sixth Congressional District which held primaries or precinct meetings Saturday, it would appear that Congressman Hannibal L. Godwin lacks not exceeding a dozen votes to ensure his re-nomination on the first ballot with Brunswick, which will hold its mass convention at Lockwood's Folly tomorrow, yet to hear from.

This estimate is based upon the presumption that both Cook and McClammy will go into convention with their respective counties solidly behind them, and from conservative estimates received from the other counties of the district in which Mr. Godwin divided the vote with the home candidate. A recapitulation of the latest returns received last night indicates the Harnett man's strength as follows:

	Godwin	Out of
Robeson	48	60
Columbus	26	41
Bladen	8	24
Harnett	29	31
Total	111	156

Necessary to choice, 126.

It will thus be seen that Mr. Godwin lacks but 15 votes of the nomination with Brunswick yet to hear from and Brunswick is said to very favorably disposed to him. This, too, is upon the presumption that he will not receive a solitary vote from Cumberland, though it is a fact that his friends at several of the polling places in Cumberland demanded that their strength be polled. The returns as received up to a late hour last night are as follows:

Godwin Increases in Robeson.

Lumberton, N. C., June 27.—Official returns from the county are not yet in but enough is known to give Godwin at least 75 or 80 per cent. of the vote. The vote between Judge Allen and Manning will be close, but it is thought Judge Allen has carried the county. Brown and Lee for Corporation Commissioners carried the county by large majorities.

Godwin Divides Bladen.

Elizabethtown, N. C., June 27.—The returns from the different townships have not all been received here yet. The reliable but not official reports give most of Godwin's strength on the east of the river, his majority ranging from half to two-thirds in White Oak, Central, Turnbull and Lake Creek and Cypress Creek are uninstructed. The west side went solid, except Carver's Creek, which is not heard from and Hollow, where no primary was held. Conservative estimates are that Godwin will get 8 or 9 of Bladen's 24 votes.

Little Division in Harnett.

Lillington, N. C., June 27.—Complete returns from the various townships of Harnett county give Godwin for Congressman 30 out of 31 votes. The one vote is divided among Clark, Cook, McKinnon and McClammy.

Dunn, N. C., June 27.—The gratuitous news item from Fayetteville appearing Sunday's issue of the Star is erroneous. The combined vote throughout the county in opposition to Mr. Godwin was less than 36 votes. Mr. Godwin will have 30 convention votes.

Dunn, N. C., June 27.—Godwin gets 29 of the 31 votes from Harnett. Clifford carries the county solidly for Superior Court judge. No vote as to Allen and Manning.

In the Air In Cumberland.

Fayetteville, N. C., June 27.—At the last session of the General Assembly an act was passed giving Cumberland a legalized primary, but its adoption was, by the act, left optional with the executive committee and the committee has not seen fit to adopt it this year so the primaries in Cumberland Saturday were conducted in the same manner as heretofore and simply delegates were elected to the county convention. No instructions were given to the delegates as to the State and Judicial conventions and in only a few instances were instructions given on Congressman, these being for H. L. Cook. In Hope Mills and Carver's Creek precincts a test vote was forced by Godwin's friends, when he led over Cook but it is not understood that the precincts go instructed into the county convention, where delegates will be chosen to the Congressional, State and Judicial conventions. It is impossible to give any forecast of the convention's action as to the choice of delegates to the three above mentioned conventions.

Majority in Columbus.

Whiteville, N. C., June 27.—It is conservatively estimated here that Godwin will get 65 per cent. and Clark 35 per cent. of the Congressional vote of Columbus. Columbus is about equally divided between Manning and Allen for the Supreme Court. Greer's nomination from this Senatorial district is practically assured.

Wilson, N. C., June 27.—The Champions were in fine form today, taking the game from the Sailors in the score of 4 to 0. The features were Stewart's superb pitching, the star work of Manager McGeehan on first base, Armstrong's three-bagger and the all round good support of the local team. Howard was in bad form and the inability of the "crew" to connect with Stewart was the reason why they failed to get beyond first base.

Kluttz and Dubbs, the first two Sailors to face him, whiffed and although Mills followed with a bingle, he was immediately out trying second. For Wilson D. McGeehan and Jacobs were out pitcher to first, Sheridan was safe on an error of Mills and stole second but Miller was also out pitcher to first.

In the second Doak was out catcher to first, Brooks fanned and Burke safetied, but Carroll flew to third. For Wilson, C. McGeehan flied to right, Armstrong was out second to first, Hudson flied to pitcher.

In the third Gilmore was out short to first, Howard flied to second and Kluttz was out catcher to first. Spalding and Stewart ethered and D. McGeehan was out second to first.

In the fourth Dubbs fouled to third, Mills out pitcher to first and Doak flied to centre. Wilson started the scoring when Jacobs led off with a bingle to centre and Sheridan was given a pass and was sacrificed by Miller; C. McGeehan then singled to right and Jacobs and Sheridan raced across the rubber. McGeehan was out attempting a pilfer; Armstrong was safe on error of Dubbs, Hudson ambled but with Spalding up, Armstrong was out attempting third.

Brooks, Burke and Carroll ethered in succession in Wilmington's fifth, and Hudson started Wilson's fifth with a fly to centre, but Spalding singled to centre and was forced by Stewart, who was himself forced by D. McGeehan.

In the sixth Gilmore flied to left, Howard fanned, Kluttz was out short to first. For Wilson, Jacobs was out third to first, Sheridan short to first and Miller on fly to left.

In the seventh Dubbs was out pitcher to first, Mills on fly to first and Doak catcher to first. C. McGeehan started Wilson with a prance to first, after which Armstrong hit a screamer to centre for three pegs, scoring McGeehan. Then after Hudson fouled to catcher, and Spalding was fanning, Armstrong squeezed home; Stewart out to centre.

In the eighth Brooks flied to left, Burke and Carroll fanned. For Wilson, D. McGeehan and Jacobs flied to centre, Sheridan walked, but was out attempting second.

In the ninth, Gilmore was out third to first, Hawkins batting for Howard, was out second to first and Kluttz flied to left.

A blankety-blank shame.

Smothered by Tobacconists smokerings.

Raleigh failed to stop the flying Kilties.

It's bad enough to lose; but to lose to Wilson—

Mills and Burke were the only Sailors that found the sphere safely.

Patterson, a pitcher from the Eastern League, has joined the Railroaders.

Mills made an error. Its such a rare occurrence we're bound to mention it as news.

The grand total of the Sailor score column resembles the middle of a doughnut.

Rube issued free transportation to four. "Such conduct bears Philanthropy's rare stamp."

Dubbsy's daily error is beginning to assume the regularity of a Republican presidential victory.

The Sailors appear to have been manning a submarine, or a dill-launch, the past two games.

Tidy Ty was not in the game, Brooks filling in as the third one in the suburban patrol.

Stewart had the whiff-whirl all skinky, and fans were as numerous as the same articles in a church pew.

We have a hunch that Brooks will be on the rubber this afternoon, so, with dovetailed digits, here's hoping.

Two Sailors churned in the first, three in the fifth, and a brace in the eighth at Stewart's elusive offerings.

Don't you know the Wilson dopster is holding his hand behind his face right now to keep from smiling at our discomfiture.

Pitcher Gehring was called home yesterday morning in response to a telegram informing him of the serious illness of his mother.

Armstrong drove out a three-bagger, and then had the brazen effrontery to steal home on his guests. Somebody please explain the play.

Tidy Ty, when he's not playing ball, is an acrobat by profession, and during the Winter does a high-priced vaudeville stunt in the big circuits up North.

Cooper is still on the sick list, having been left behind by the boys yesterday morning, and in all probability will not be able to get in the game this week.

"Dick" Smith, of the Lynchburg, Va., team, hasn't forgotten how to stand up for what he thinks are his rights. Last Friday at Norfolk he was fined $10 for disputing a decision of the umpire, and when this failed to subdue him he was benched, and finally for mouthing on the bench, was chased to the club house.

There was a rumor afloat yesterday morning that Manager Kite was trying to get a line on twirler Hanks of the Goldsboro team. Hanks has not won a game out of the four that he has pitched for Goldsboro, but perhaps he has not had a fair showing as he has been up against the best houndsmen in the league. It was he who was pitted against Boyle in that fifteen-inning tie game with Fayetteville, and it was this same individual who essayed to twirl against Brooks in that no-hit game at Goldsboro.

The report was pretty extensively circulated yesterday, started of course, by some who are putting their money on the games, and who do not seem to recognize the fact that they must lose occasionally, that the game Saturday was a sort of "lay-down" on the part of some of the players, and this notwithstanding the fact that these same men pulled off other plays which featured the game. The members of the Wilmington team as a whole, have every appearance of being gentlemen, to whom such a thing would be as despicable as to those making these charges, and the writer is quite sure that were they well acquainted with the players in question, such an idea would never occur to them. They played the game Saturday for all that was in them, and if there was several errors and mis-plays it was only in the inevitable "course of human events," and their star performing at other periods of the game should convince any fair-minded person that it was a clean, honest defeat.

JEFF AND JACK'S LAST WEEK

Fighters Have Only a Few Days for Training—Both in Splendid Trim and Working Hard—Arena Almost Ready.

Reno, Nev., June 27.—The last week of preparation for the Fourth of July struggle for supremacy between Jim Jeffries and Jack Johnson opened in Reno without any of the excitement which marked its immediate predecessors. Such progress was made on the arena today that its completion in time for the fight is certain; both fighters are in splendid trim and everything connected with the event is moving along satisfactorily.

Swinging himself onto the boxing platform at Moana Springs shortly after 8 o'clock this morning, Jeffries plunged to 11 rounds of continuous boxing, alternating with Choynski, Corbett, Armstrong and Berger; and followed up with two rounds of tugging and hauling around the ring with farmer Burns. It was fast, furious work from start to finish and Jeffries kept increasing his pace until in the final round with Berger it was close to a real fight.

In the last of his three rounds with Armstrong, Jeffries sent his dusky retainer to the floor with a powerful right. It was a clean knock down.

In all Jeffries boxed three rounds with Choynski, three with Berger, three with Armstrong and two with Corbett. The last round was with Berger and this one attracted much attention. Jeffries, who was dancing about the ring like a school boy, insinuated that Sam was too tired to go another round. Berger resented it and retorted that "I'll show you whether I can go another or not."

He dashed at Jeffries with a vigor that carried the big man back a step or two, and the training crew agreed that it was the fastest work Jeffries has done since getting into shape.

Johnson opened the last week of his training with an eight mile jaunt along the roads. He moved rapidly, either trotting or keeping up a swift walk, went later to Reno to meet Tex Rickard in a business conference. Neither would discuss the nature of the conference further than that it was a strictly business talk.

Tim Sullivan, of New York, stakeholder of the Jeffries-Johnson contest, telegraphed Rickard today that he would be in Reno July 1st. The message from Sullivan instructed Rickard to order the transfer of the $30,000 purse money from San Francisco, where it is now in deposit, to Reno. This will be done tomorow.

John Jeffries, brother of the former champion, arrived from San Francisco today, accompanied by his wife. There was a cordial greeting between the two brothers.

Tex Rickard stated today that the men would enter the ring sharp at 1:30 o'clock on the afternoon of the Fourth of July. The fight was originally scheduled for 3 P. M. but has been set forward in order to facilitate the exodus from Reno Monday afternoon.

OLDEST UMPIRE RETIRES.

Sheridan Has Shouted "Batter Out" For Last Time—His Career.

Washington, June 27.—John F. Sheridan, of the American League, for 30 years a professional baseball umpire, packed his baggage here today and half an hour before the time for the first game between Washington and New York, surprised Umpire Egan with the announcement that he had shouted "batter out" for the last time.

"Egan," said Sheridan, "I've quit, and you'll have to go it alone today. I'm going to Chicago on the next train."

He left a short time afterwards for Chicago, where he will report his resignation to Ban Johnson, president of the American League, tomorrow morning. Egan said that he had no idea of Sheridan's intention until the latter told him he had quit. Egan, thereupon telegraphed Sheridan's action to President Johnson.

Sheridan is the oldest umpire in point of service in the country. He began in Columbus, Ga., in the old Southern League, and has been in the American League since its organization. He told Egan he intended to go to his home in San Jose, Cal., where he has an undertaking establishment. It is reported among the players that Sheridan may be induced to take a position as a chief of umpires, the establishment of which has been discussed in the American League.

ONLY ONE REGULAR ELECTED

Sensational Campaign in Wake Resulted in Victory for Reform Element —Judge Allen Probably Wins Over Manning.

(Special Star Correspondence.)

Raleigh, N. C., June 27.—With the returns from only two precincts still unofficial, but with fairly accurate estimated figures from these, it is conceded today that the "regular" or "ring" candidate, J. H. Sears, is renominated for Sheriff over "Insurgent" Candidate Hal. D. Rand.

All the other nominees in the sensational Wake primaries just closed, legislative and county, are of the "insurgent" ticket. Dr. W. E. Sikes, of the Wake Forest College faculty, "insurgent," has defeated State Senator W. B. Jones by 375, partly estimated. Hon. R. H. Battle has defeated Jno. W. Hinsdale, Jr., for the lower house, by 657 votes, Battle having received about 200 hundred votes more than any other candidate in the race for any office. W. M. Russ, present clerk of court, on the "regular" ticket, lost to Millard Mial, "insurgent," by 59 votes. This primary has closed by far the most sensational contest in the history of Wake county. There has been discussion of the possibility of contests in the case of the sheriff to throw out votes and make Rand, "insurgent," the nominee, thereby giving the "insurgents" a clean sweep, but this is not believed to be at all probable. On the other hand, it is suggested that the "insurgent" leaders will be glad enough to retain Sheriff Sears on the ticket to as far as possible, hold together the entire Democratic forces for the general election in November, when the Republicans are planning to get out a ticket that will be sufficiently attractive to entice many of the more disgruntled of the defeated wing of the Democratic party to the Republicans or at least independent ranks. There is sure to be the most strenuous sort of a campaign and unfortunately the two factions of the Democratic party have during the past sixty days collated for the Republicans a superabundance of campaign material with which to make their fight. The county convention or meeting for the organization of the executive committee is to come together next Saturday.

The impression is very strong here, although the figures thus for are not at all complete, that W. R. Allen, Superior Court judge of the sixth Superior Court district, has defeated Judge J. S. Manning for the associate justiceship of the Supreme Court, to which Judge Manning was appointed by Gov. Kitchin. Some of the strongest friends of Judge Manning here are known to believe that Judge Manning has lost out and that Judge Allen will take the nomination in the Charlotte convention.

It is estimated that in the primaries Saturday Wake county cast about the same total vote as was cast in the last general election for the Democratic ticket. Raleigh's total vote two years ago for both parties was 2,648. Saturday the primary vote was 1,960. The Republicans declare that the outcome of the Democratic contest could hardly have pleased them better and are insisting that they have the best sort of a chance to win by putting up a ticket the personnel of which will attract the more disgruntled of those who went into the primaries Saturday and are inclined to swing off on account of the terrific personal abuse that characterized the primary campaign. However it is believed that the rank and file of the "regulars" will remain true to their party colors at the November election in spite of the heavy defeat, the realization of which dawned upon them just when they were all but ready last night to break out in shouts of triumph over what seemed to be their victory.

GET RICH QUICK SCHEME.

Prominent Charlotteans Are Victims of a Swindling Game.

(Charlotte Observer.)

Did you buy a kitchen cabinet? Or better still, did you buy territory in which you had the exclusive right to sell the cabinet manufactured by the Extension Kitchen Cabinet Company, of St. Louis, Mo.? It was another "get rich quick" scheme which lured several prominent Charlotte business men to hand out an aggregate of several thousand dollars. One Mr. A. W. Lincoln canvassed these business men who later became sick of their bargain and sought him out. He was apprehended in Galesburg, Ill., on a charge lodged by Charlotte gentlemen for "conspiracy to cheat and defraud." An officer was sent immediately to bring him but the officer returned unaccompanied. Mr. Lincoln was located and the officer left June 18th for Galesburg where the arrest was made on Monday last. He was not armed with requisition papers and as Mr. Lincoln refused to return without them the officer was left helpless. In the meantime an attorney was employed by the prisoner and two writs of habeas corpus were issued. Due to an error in the warrant, his release was ordered and the officer said his man left the commonwealth post haste.

Lightning Photographs House on the Back of a Man.

(Special to Charlotte Observer.)

Hickory, June 26.—The latest freak of lightning, which is always pranky, is amateur photography. A few days ago lightning struck the house of a Mr. Smith, living near Mr. George B. Hiss' Rhodehiss. Almost at the same time it struck a tree in the yard, and, going into the house, it struck Mr. Smith, stunning him. An elegant picture of the house was made both on the back of the tree and on the skin of Mr. Smith's back.

RURAL CARRIERS MEET SOON.

Promises to be Interesting and Well Attended Session—Features.

(Special Star Correspondence.)

Rocky Point, N. C., June 27.—The Rural Letter Carriers' seventh annual convention to be held at Raleigh, July 4th and 5th, promises to be the most interesting yet. There are a number of attractive features, chief among them being the presence of Fourth Assistant Postmaster General DeGraw, who will visit the North Carolina session at Raleigh on the Fourth and the South Carolina convention at Newberry, on the 5th. Gen. DeGraw is at the head of the Rural Free Delivery system and is loved and respected by all rural carriers. I know each one in our grand old State would like to shake his hand. Postmaster Willis G. Briggs, who signs all of our checks, will make us a talk. We'd all like to grasp his hand, too. Dr. Joseph Hyde Pratt has just written me that he will be there on the Fourth and make us an illustrated lecture. You know there is no class of citizens in North Carolina more interested in good roads than the rural carriers. Dr. Pratt is doing a great work for his State just now, possibly more than any other State official. Hon. John H. Small is expected on the 5th to tell us of his Rural Parcels Post bill that was recently introduced in Congress. Clarence H. Poe, who by pen and speech is doing so much to elevate our own beloved State in a mental, moral, physical and financial way, will make us a short talk on the 5th.

And the Raleigh boys are going to give us a smoker to which quite a number of the editorial profession have been invited. And an old time "spelling bee" with Webster's elementary "blueback" as text book will be "blueback" as text book, will be a feature of the occasion. Col. Joseph Robinson, of the Goldsboro Argus, and Mr. Clarence H. Poe, will umpire the game and award prizes to him as "sets down first," and him that "stands out" the longest. The railroads will give reduced rates for the occasion from the second to the sixth of July.

The Capitol Inn will give $1.00 per day rates, which is about as cheap as you can stop at home; so brother carriers don't fail to go to "Rolly." Remember as a body, "Yo-heave, oh, ho," we have a pull and a long pull, a strong pull and a pull altogether means much. And after hearing Dr. Pratt talk on good roads you will go home and enthuse your people on the subject, talk good roads, act good roads, and spend a few dollars showing an example and thus get a little leaven and leaven the whole State.

Faithfully yours,
E. D. PEARSALL,
Cor. Secretary N. C. R. L. C.

Baby Found in Willow Basket in the Rushes on Bank of Bayou.

Moreauville, La., June 27.—Like Moses of old, a young baby was found near here last night, floating in a protected willow basket among the rushes along the banks of a bayou.

In the place of a ruler's daughter, a merchant of this place overhauled the unusual craft and unsentimentally summoned the sheriff to make an investigation in searching of the missing parents.

In addition to the child the basket contained a milk bottle, a one-dollar bill and a flask of whiskey.

Speaker Cannon now denies that he wanted to shoot or hang the insurgents. In spite of Uncle Joe's denial we are sure no insurgent would trust him wit a meataxe.

Says the Chicago News: "Even a short man may have his long suit." This reminds us that a short man suits the average woman better than a tall man who is always short.

Some surgeons and dentists in New York have equipped a man with a solid gold jaw. It is quite a marvellous operation, but that man should be more careful than ever how he gives people any of his slack jaw.

An international Congress is suggested for the passage of a law prohibiting war among the nations of the world. We nominate Col. Roosevelt as the "Uncle Joe" of the world Congress.

It is stated that there are six candidates for the gubernatorial nomination in South Carolina. This means that six varieties of diplomatic relations will be served before the campaign winds up.

Mr. Gore, Oklahoma's blind Senator, openly exposed the men who offered him a bribe of $25,000 to $50,000. He saw through their trick and consequently couldn't see his way clear to accept what he looked upon as graft.

Congressman Harrison, of New York, appears to have dropped out of sight since President Taft turned him down at the White House. Probably the New York statesman really enjoyed the cold shoulder during the recent hot wave.

The Kansas City Times tells us that "a Kansas City man obtained 10,000 cigars by fraud." The man must have put up a job on all the candidates of both parties, and if they were campaign cigars they may have the laugh on him.

Archdeacon Sinclair, a six-foot Scotchman, declares that oat meal accounts for the enviable height of the Scots. If food has anything to do with the heaght of a man we fear that short rations on account of Republican high prices will give Americans a sawed-off appearance in the next generation.

The Jacksonville Times-Union philosopher observes: "The man who tills Florida soil is the luckiest of all men." The man who tickles North Carolina soil doesn't have to trust to luck. Natures smiles on him Summer and Winter, and it is a man's own fault if a single wrinkle ever furroughs his brow.

Mr. George Westinghouse, realizing that the automobile is too much of a bumper, is making an effort to produce a new air cusion to be used on automobile springs so that an automobilist will feel like he is undulating on a feather bed. This will keep many a man from wanting to swap his auto for the first aeroplane that comes along.

Charlotte is agitated over the question of granting a franchise to parties who desire to construct another trolly line, running in a portion of the city not served by the company which already owns a street railway system in Charlotte. The existing company is fighting the proposition as an interference with their rights. A glimpse into the constitution of North Carolina will disclose the fact that neither the city authorities nor the Legislature can grant exclusive priviliges in North Carolina. Any man or any corporation claiming exclusive privileges since the adoption of the constitution are way off.

THE TRUE COUNTERSIGN.

Secretary of War Dickinson has gone off on a world tour. This distinguished Tennessee gentleman was given a place in the Cabinet as a Democrat, but probably as he could not consistently take part in the campaign against the administration, and as he could not consistently oppose the Democratic party, it was up to him to get away so he could prove an alibi.

It is a hard job for any man with convictions one way or the other to hold middle ground. More often than otherwise he finds himself "twixt the devil and the deep blue sea." In Dickinson's case the Democratic party is doubtful about him, and the Republican party is not sure of him.

Every strong man, whether he is a Democrat of a Republican, ought to be ready to go into the firing line for his party, if he believes in principles. The man who allows himself to get between the lines is in a bad fix. The man who runs up his colors and stands by them will have the crowd to meet him when he goes to a far country and returns again. No man ever split his lungs yelling for a straddler.

We cannot state positively that Judge Dickinson has gone off to keep out of the campaign, but "now is the time for all good men to come to the aid of their party." At any rate no good Democrat ought to go to Europe and leave his own party in a strut, while the greater probability is that he will send up a Democratic prayer for Republican success.

The man who might fight with his friends but camps with their enemy is in an exceedingly embarrassing position. He is in a hard row of stumps.

Wherefore, a man should always be ready to give the true countersign so his friends will know him.

WORSE THAN A GRAFTER.

The lamented Josh Billings often confessed his undisguised malice for the fly. He was right. The typhoid fly should be burned at the stake because of its danger to health and certainly no aimably disposed gentleman who has a baldhead nor one who has a nose that is the least protuberant or ticklish would object to turning a whole volcano loose on the entire fly breed.

The fly that can "come back" early and often, in spite of a right swing or a left jab from a man who happens to get drowsy, is nefarious as well as dangerous. Such pests as that appear to be either devilish or humorous, as very frequently appears to be the case when they nimbly dodge a blow and get back to the very identical spot before a snoozer can say Jack Robinson. We do not hesitate to say that we concur in everything that Josh Billings ever said about or did to a fly.

We are also heartily and earnestly in favor of the crusade made against the breed by the health authorities, and it certainly is hoped that the pests can be scientifically and quickly exterminated. From a health point of view, it would be a blessing to humanity for the fly to be utterly annihilated, and we do know that one of the most insignificant causes of profanity would thus be eliminated. The fly is not only a disease promoter but there is not the slightest possibility that a man can ever "turn over a new leaf" as long as the fly is allowed to stand in the way of reform. The fly is manifestly worse than the grafter.

A LADY CITY EDITOR.

Well merited congratulations have fallen to the lot of the esteemed Charlotte Evening News because of the announcement of that paper that it has secured Mrs. Addie Williams Caldwell to fill the position of city editor. Mrs. Caldwell succeeds Mr. S. H. Farebee, who has joined the staff of the Columbia Evening Record, and it is a pleasure to note that this gifted lady is so prominently identified with Charlotte's enterprising and excellent afternoon newspaper. Newspaper work is not new to her by any means, for some years ago she was city editor of the Charlotte Observer, filling that position with conspicuous ability and giving its local department a sprightliness and brilliancy that attracted wide attention.

Governor Harmon, of Ohio, appears to have been able to hold his State convention without any foreign interference.

Probably the Rough Rider took that long hunt in the African jungles so he can prove an alibi if anything happens to the G. O. P. this Fall.

If the Republican party fails to insert the big tap into the Trusts for a bumper flow of corruption funds this Fall it will be a breach of precedence.

CURRENT COMMENT.

If the government has the power to prevent companies and corporations from watering their stocks and issuing bonds, why don't it go ahead and do it? If Mr. Wickersham has the remedy in his hands it is manifestly up to him.—Durham Herald.

The blackberry crop is said to be the largest ever known; in some places they resemble grapes, being in clusters. Time was when we could almost subsist on blackberries. All one had to do was to go to the fields and gather them in. Blackberries in summer and rabbits in winter made a "steady diet," but that day has passed; both are now in demand and bring good prices. Hunt rabbits on a man's land and he will indict you; attempt to gather blackberries and you will get into trouble.—Greensboro Record.

Charlotte and Wilmington people will take courage from the contention of the wireless people that their stock is all right. About $30,000 of wireless stock is held in Charlotte. These stockholders have received a statement from the United Wireless Telegraph Company promising a thorough investigation. It charged the government with arresting its chief officers while the Federal inquiry was still in progress. Figures were given to support the assertion that $20,000,000 was not an over capitalization. It stated that of the 101 wireless stations on the government's list the United had 74. A special meeting of directors, not officers, of the company will be called, the statement added, to see that the company's investigation of itself is thorough.—Charlotte Chronicle.

Speaking of North Carolina's "pull" in Congress, The Wilmington Star says: "The city of Charlotte is to be congratulated upon having secured an appropriation of $250,000 for a new postoffice building, which added to the value of the present property, estimated at $60,000, will give the Queen City a public building that will represent a cost of about $300,000. It is said that no other city in the Union of Charlotte's size has received so large an appropriation, but it is none too small, for Charlotte will rapidly grow up to it." Why, man, the town is there right now. The $300,000 building will be a tight fit by the time it is completed. Charlotte's ambition and need was for a million dollar building, but it had to take what it could get this time. In ten years from now, this town will be compelled to have a bigger postoffice.—Charlotte Chronicle.

Figures gathered by the Southern Railway Company show that during the fall and winter just passed the company handled out of western North Carolina a total of 30,750 barrels of apples, or an equivalent of 205 cars. Of this amount 20,000 barrels came from the territory along the Murphy division of the railway. This is the first year the railway company has kept accurate statistics, but Division Freight Agent A. K. Orr intends to each year keep a record, which will prove a valuable source of information as to the resources of the country. The apple crop last year in some sections was very good, while in others it was not up to the usual. It is said that the crop of this year is fully up to that of last year as a whole. In Some sections the crop was damaged considerably by the late frosts but in others it was apparently not injured. Information is to the effect that the potato crop in this section will be one that can be banked on next fall to yield a splendid source of revenue. It is said that Henderson county has the largest potato and cabbage crop in its history. The continued rains of last season cut the crop short. With perhaps the largest corn crop in the history of the western section, and corn in fine condition, and with prospects for a fine summer boarder crop, it seems that Western North Carolina will enjoy a prosperous year.—Asheville Gazette News.

Some time ago a company was formed known as the Greenville, Anderson and Spartanburg Railroad Company. The purpose of this concern is to build a line of inter-urban railway connecting these South Carolina cities. An official of the company is quoted as saying that the required $600,000 has been subscribed by cotton mills and other corporations and individuals interested in the line.

Another company known as the Piedmont Traction Company has been formed in this State. Mr. Lee, of this city, is president. Its object is to build a line of interurban railway also, connecting with the South Carolina line, which will run from Kings Mountain, on by Gastonia, Charlotte, and thence to Concord, Kannapolis, Salisbury, Lexington, High Point and Greensboro. Whether or not this line will be built rests with investors in this territory. The Dukes, who are behind the entire project, offer to handle $2,500,000 of the bonds required to carry out the whole proposition. Construction of these lines in both States will cost $5,000,000. Of the remaining $2,500,000 the Dukes offer to subscribe one half, if mills and individuals along the proposed route will subscribe the remaining amount. In order to guarantee the construction of the line in this State it is necessary to raise $600,000 in popular subscriptions. Already various persons have announced their desire to subscribe, still the amount is by no means in sight. South Carolina has handled its end of the project, and work has already begun on the line. What will North Carolina's answer be to this opportunity? The matter should be of peculiar interest to Charlotte citizens. If built, the line would bring this city in arm's reach of a territory extending from Spartanburg to Greensboro, and even further. Charlotte is the center of the Southern Power Company's development. Every business man in the city would share the manifold benefits arising from such a line. The country would be brought in close touch with the city. Mercantile establishments, and all lines of business would profit by increased trade.—Charlotte News.

While it may be taken for granted that the results of yesterday's primaries did not suit everybody, we must nevertheless bear in mind that a Democratic ticket has been chosen, and it is the duty of Democrats in Buncombe to rally around the standard and meet the common enemy with a solid front. As The Citizen remarked two years ago on a similar occasion, it must needs be that the primaries, as at present conducted, leave a soreness such as always follows the overthrow of some cherished plan. But let us always keep before us the fact that everybody on the ticket cannot be nominated or elected, and since the contests for nomination among members of the same party should be conducted in a friendly spirit, the bitterness of defeat should be forgotten in true zeal for the common cause. There is no denying the fact that from now on until the November election, there is a world of hard work before the county Democracy. Our Republican friends believe that they see a rare chance for success at the polls. To ride on a popular wave we might deride that claim, but we cannot blind ourselves to the fact that the Republicans of this county have their wires well laid, and are now working with astonishing vigor. We are aware that it is no wide margin which separates the two parties in this county, and no Democrat can afford to imperil the chances of his party by that spirit of overconfidence which frequently wrecks great causes. The last thing that any Democrat in this county would want to see would be a Republican victory, but it would be a doubly bitter dose were such a catastrophie to come by carelessness and lack of interest on our part. So no matter what fate might have been meted out to your favorite in yesterday's primaries, you are in duty bound to vote for the nominees, for you undertook such an obligation when you entered the primaries.—Asheville Citizen.

POSTAL SAVINGS BANKS.

Mr. Editor:—The Postal Savings Bank bill has become a law, and I had looked forward to this bill as one of the means by which the great masses could be educated to become savers of their earnings rather than spendthrifts, as is today, going frantic over frivolity, such as baseball, moving picture shows and many other things, save the advantages of better education. The bill provides that the deposits of the money, shall be designated to certain banks. The danger is that the banks of the larger cities will get the bulk of the deposits. The only weak point, it seems, in the bill is, that this money is to be deposited in the banks drawing 2 1-4 per cent. interest, while if a portion of it was loaned to the farmers, who would form corporations of drainage districts, townships and counties who would issue bonds for good roads, better and more practical school facilities, it would pay the Government 100 fold greater dividends, in the way of more intelligent farmers, better roads, and a higher civilization, consequently better citizenship. Will our Congressmen continue to allow the creators of wealth and the feeders and clothers of the world to always be discriminated against, if so, all other classes must suffer sooner or later.

I am glad to note that Congressman John M. Morehead, from North Carolina, has introduced a bill whereby the farmer could borrow from the Government, money at 2 per cent. whenever they formed corporations of drainage districts, for the purpose of draining our waste and most valuable lands; though this bill it seems lacks friends enough to get it out of the pigeon hole, yet there is as much justice and more philosophy in lending to the farmers, money at 2 1-4 per cent. when incorporated for the purpose of draining their lands, building good roads and schools than there is to the banks at the same rate of interest, as the farmer, when he can borrow has to borrow it from the banks at 6 to 8 per cent.

If that is not discrimination in favor of the few and against the very class, on whose prosperity depends the banks and all other classes, I am at a loss to know what discrimination means. As a man's education is from the cradle to the grave, there is still hope, that the farmer, through the Farmers' Co-operative Union, will study these economic questions, and if they hang, hang together, until this discrimination ceases. Though this important work will not be accomplished until we send men to make laws, who have the welfare of the farmers at heart, at least, as much so as other special classes. The Postal Savings Bank bill can be amended at our next Congress, so that the farmer could share the advantages, along with the bankers, in fact the money would be more evenly distributed in the various banks than it would under the present system, where no doubt the banks in the large cities will get the bulk of the Postal Savings deposits, where it will benefit the speculator, helping him to keep the farmer in his depressed condition. By lending it to the farmers each bank will get its share of the deposits. It is up to every man, in every profession of life to see that the farmer has equal treatment, and if each State's deposits of the Postal Savings Bank can be loaned in their respective States for the benefits as above stated, it will become one of the greatest blessings that the country has ever received through legislation. Respectfully yours,

B. F. KEITH.

YOUNG MAN ELECTROCUTED.

Lineman Killed at Raleigh While Working on Fire Alarm.

(Special Star Correspondence.)

Raleigh, N. C., June 27.—An electric current of 2,300 voltage flashed through the body of Vernon Bynum, lineman, about 8 o'clock this morning as he was at work stringing city fire alarm wires, and killed him almost instantly. He was on the cross-arms of a tall pole at the corner of Salisbury and Morgan streets, southwest corner of Capital Square, and was adjusting a tie line over the pole when in some way his side came in contact with the power wires of the Carolina Light & Power Co., and he was seen to make the spasmodic contortions that showed that he was in the grip of the deadly current.

A few minutes before he had gotten a more light shock and the helpers on the ground had warned him to come down, but he was bent on adjusting the line when the second and deadly voltage flashed through him. It required half an hour to adjust ladders and rope and tackle with which to disengage the body and lower it to the ground where a number of physicians waited to do whatever they could toward restoring life. Artificial respiration and every other means for restoration of life known to the profession was applied without avail. Bynum came to Raleigh from Wilson just a week ago. His parents live at Wilson. He is unmarried and is about 30 years old. Working with him were Harry Tatum, apprentice lineman, and a negro helper. Bynum has had seven years' experience as lineman. He was working for the city, getting kinks out of the fire alarm wires under the direction of the superintendent of the system.

A meeting will be held in Chadbourn the latter part of next month for preparing a programme. There are now 17 live local unions in the county, with a total membership of about 500. Plato D. YOUNG MAN'S TRAGIC DEATH

Capt. LeRoy Smith, of Steamer City of Fayetteville, Drowned From a Launch in Cape Fear River Sunday.

Hundreds of relatives and friends in Wilmington were shocked and saddened Sunday afternoon, when the distressing news reached the city of the tragic death of Capt. LeRoy King Smith, who was drowned from a naphtha launch in the Cape Fear river near the Orton Plantation, some 15 miles below Wilmington, about noon of the same day. Although several parties with a number of boats were engaged all day yesterday in a search, the body had not been recovered up to late yesterday afternoon.

Captain Smith, for some six years master of the steamer City of Fayetteville, plying between this port and Fayetteville, was a son of Mrs. Rosa Barry Smith, and the late Harry H. Smith, who was for many years telegraph editor of The Morning Star. In company with Messrs. Samuel J. Springer, J. E. Platt, James McFarlan, Frank Sears and a Mr. McDaniel, Capt. Smith left Wilmington Sunday morning in Mr. Springer's launch for Wrightsville Beach, where Capt. Smith expected to meet his mother who went down on a suburban car during the day. Owing to the heavy seas prevailing Sunday morning, the party, after reaching a point some miles from the mouth of the river, decided to return to the city. Capt. Smith and Mr. Springer were riding on top of the cabin of the boat and when about opposite the Orton Plantation, where the accident occurred, Capt. Smith decided to go inside, remarking to his companion that it was too hot on the canopy to be comfortable. It was stated by a, member of the party that when Capt. Smith arose a heavy wave struck the boat, causing him to lose his balance and fall backwards, the impression being that his head struck the edge of the boat as he fell, injuring him to such an extent that he was unable to combat the waves. Had he not been injured in some way in the fall, it is thought probable that he would have been able to pull himself out of the water, as he was considered one of the best swimmers in this section. There seems to be some question as to whether the young man's body rose to the surface, however, one member of the party stated that it did rise one time, but owing to the high waves no assistance could be given him.

No effort was made Sunday afternoon to recover the body, but early yesterday morning several persons went down and others left later in the day for the scene of the tragedy. They labored all day in the hope that the young man's body would be recovered, but their efforts were in vain.

Captain Smith's companions returned to the city about 3 o'clock in the afternoon and summoned Mrs. Smith, who was at Lumina awaiting the arrival of her son in the launch. The message she received at the beach was that some serious trouble had befallen her son and upon arrival at her home in this city the sad news was gently broken to her.

Captain Smith had spent practically all of his life in Wilmington and he was very popular with a wide circle of friends, who were deeply grieved to learn of his untimely death. He was in the 28th year of his age—the prime of young manhood, and the future held out great things for him in his chosen work. Early in life he manifested a great fondness for the river and at the age of 18 he passed successfully the examination for pilots and captains license. The license as captain was not issued, however, until he attained the required age, 21 years, shortly after which he became captain of the steamer City of Fayetteville, which position he filled with credit to himself and eminent satisfaction to the company until his death. One who knew him well stated yesterday that he was one of the best river boat captains in this section. He made a map some years ago of the channels in Winyah Bay and Santee river which work was very highly complimented.

Captain Smith was a man of sterling qualities and was extremely popular with a host of friends. He was a member of the Knights of Pythias, holding his membership in one of the local lodges. He had advanced rapidly in the steamboat business and the future held out great things for him. He is survived by his mother, Mrs. Rosa Barry Smith, two sisters, Mrs. J. I. Campbell and Mrs. F. C. Jones, of Wilmington, and two brothers, Mr. Owen Smith, of this city, and Mr. Harry H. Smith, of Charlotte, besides two aunts, Mrs. J. P. Starr and Mrs. Louise Banks, both of Fayetteville. The tenderest sympathy of hundreds of friends in this city and elsewhere goes out to the bereaved ones. Mr. Harry Smith, of Charlotte, was informed by telegraph Sunday afternoon of the tragic death of his brother, and arrived here at noon yesterday to be with other members of the grief-stricken family.

"GOOD WATER" AT BEACH.

Report of the Analysis Made by Dr. C. A. Shore, Raleigh.

Mr. H. E. Bonitz, general manager of the Beach Water Company, which furnishes nearly all of the water used on Wrightsville Beach, has just received from Dr. C. A. Shore, of the State Laboratory of Hygiene, Raleigh, a report on the analysis of a sample of the artesian well water, at the Hammocks, the source of the water supply for the beach, and it shows that the water is good and absolutely free from bacteria. The following is the report: "Sediment, very slight; color, platinum-cobalt, standard, very slight; turbidity, silica, standard, very slight; odor, cold, 0; odor, hot, slightly aromatic; alkalinity (in terms of calcium carbonate), 177.5; Chlorine, 25.7; nitrogene and nitrates, trace; nitrogen, as nitrates, trace; free ammonia, .170; albuminoid ammonia, .08; colon, bacilli in 1 C. C., 0; colon, bacilli in 10 C. C., 0; Total number of bacteria per C. C., 1,000. Good water."

Mr. Bonitz stated yesterday that an electric pump had just been received and would be installed within a few days which will greatly increase the pressure.

NINTH ANNUAL CONVENTION

North Carolina Veterinary Medical Association in Session at Monroe Last Week—Dr. Carroll Returns.

Dr. Thomas B. Carroll, city meat and dairy inspector, has returned from Monroe, where last week he attended the ninth annual meeting of the North Carolina Veterinary Medical Association, the State Board of Veterians, of which he is a member, and the State Live Stock Association. The meetings were well attended and the practical demonstrations were of value to the farmers, many of whom were in attendance.

The following four applicants for license to practice as veterinarians passed the examination successfully: L. F. Koonce, Raleigh; D. B. Flowe, Salisbury; E. P. Wood, Raleigh; H. Wynn Nobles, Greensboro. The examination was given by Dr. Thomas B. Carroll, of this city, and Dr. Watt Ashcraft, of Monroe. The following were elected as officers of the State Board of Veterinarians for the ensuing year: President, Dr. Adam Fisher, Charlotte; secretary and treasurer, Dr. G. A. Roberts, of Raleigh.

A number of interesting papers were read before the Veterinary Association and Live Stock Association. The following are the officers elected by the former body for the ensuing year: President, Dr. Watt Ashcraft, Monroe; secretary and treasurer, Dr. W. G. Chrisman. The Live Stock Association elected the following; President, Mr. Shuford; secretary and treasurer, J. A. Conover, Raleigh.

The final joint meeting of the two organizations was held Friday afternoon at which a number of papers were read, among them being one by Dr. Thos. B. Carroll, of this city, on "Interesting Cases." The following matters were referred to the legislative committee to be brought to the attention of the next Legislature: Laws for stallion registration, and the provision for an indemnity fund for glanders in horses and tuberculosis in condemned cattle.

The next meeting will be held the latter part of next June at a place to be selected by the executive committee.

EIGHTH ANNUAL EXCURSION.

Many Charlotte People Coming to the Beaches Today.

The eighth annual excursion of the Pritchard Memorial Baptist church Sunday School, Charlotte, will be operated to Wilmington and the beaches today. The train will leave the Queen City at 8 o'clock this morning and arrive here at 3 o'clock in the afternoon. It is expected that there will be anywhere from 300 to 500 in the party and they will make the Seashore Hotel, Wrightsville Beach, their headquarters. This is the eighth annual excursion of the Sunday School to Wrightsville Beach and they become more popular every year. The excursionists will leave Thursday morning on the return trip. Attached to the train on the rear will be a reserved seat coach and it is expected that this will be filled. The committee in charge of the excursion has paid to the Seaboard Air Line some $7,000 for excursion trains in the last seven years and has always cleared some profit for the Sunday School. These excursions are patronized by some of Charlotte's leading people and the best of order is always maintained. A river trip has been arranged with Capt. John W. Harper, the genial and popular owner of the steamer Wilmington, the party leaving here at 9:30 o'clock Wednesday morning and returning in the afternoon. The river trip is always a feature of the outing.

MR. H. M'CLINTOCK INJURED.

Thrown From His Bicycle at Twelfth and Market Streets.

Many friends will regret to learn that Mr. H. McClintock had his collar bone broken by a fall from his bicycle near corner of 12th and Market streets about 6:30 o'clock yesterday afternoon while on his way home, at 1816 Princess street, from the Atlantic Coast Line general offices, where he holds a position. It seems that he was riding a short distance behind Dr. R. Harllee Bellamy, who was driving his automobile, and that a negro child, who was in the street, but dodged the auto, collided with Mr. McClintock's wheel. Mr. McClintock was thrown violently to the ground and injured as above stated, while the child was also injured to some extent. Mr. McClintock was taken to his home where he was attended by Dr. R. H. Bellamy. While he is suffering much pain from the injury, he is getting along as well as could be expected and hopes to be out again in a week or ten days, his friends will be glad to know.

Bryan, Esq., of Scott's Hill, while Mr. Grant appeared for the defendant. TWO ROBBERIES LAST NIGHT.

Residence on Red Cross Street Entered and Ransacked.

Burglars seem to be on their annual Summer round of the residences of the city, two more robberies being reported to the police last night. Entrance in both instances was effected from the rear while members of the family were seated on their front porches enjoying the cooling breezes. At 10:15 o'clock a telephone message was received at police headquarters from the residence of Mr. J. A. Fountain, No. 316 Red Cross streets, to the effect that while members of the family were on their front porch someone entered the house from the rear and ransacked nearly every room, but nothing of value had been missed. It was stated that when the cook left shortly after supper the rear part of the house was closed and all members of the family went out on the front porch, not going back in the house again until ready to retire. It was then that it was discovered that there had been an intruder Ten minutes later a message was received from 212 Red Cross street requesting an officer. Sergeant Grimsley answered the call and found that the house had been entered almost under the same circumstances as reported in the other case. The intruder was evidently in search of money, as he carried away a ladies' handbag, which was empty, however, while several pieces of valuable jewelry on a bureau near the handbag was not molested.

TROUBLE AT BEACH.

Jim Register Figured Prominently in Fight Sunday Night.

The first trouble of consequence reported on Wrightsville Beach this season occurred in the restaurant of the Ocean View Hotel Company, Sunday evening about 8:30 o'clock, in which J. C. Register, a well known character, figured quite prominently, and for whom a warrant was sworn out yesterday before Justice Harriss by Mayor Thomas H. Wright, of Wrightsville Beach. Three other persons were mixed up in the affair, so it is said, but their names had not been learned by the officers yesterday afternoon. A thorough investigation is being made, however, and something further will probably develop today. About all that could be given out authoritatively yesterday was that Register went into the restaurant and began directing remarks at one or two persons calculated to bring on a fight, and that a fight was the result. Register was considerably worsted in the melee, receiving several deep cuts on his head, said to have been inflicted with an ice pick. The investigation is being directed by Mayor Thomas H. Wright and officers of the Tidewater Power Company.

The Bingham School, whose area of patronage during its 117th year extended from New York, Canada, Montana and California to Florida, refuses pupils every year for want of room.

Its safety against fire and its exclusion of hazing and drinking, through its inviolable pledge of honor enforced by the boys themselves, attract both parents and pupils.

Its climate, sanitation, ventilation and fare secure an average gain of nineteen (19) pounds a year.

It is said that the negro did not ask the conductor to have the train stopped. The train was moving at a fairly high rate of speed and the negro was fortunate in escaping without more serious injury.

CORRUPT METHODS DENOUNCED.

As Practiced in Illinois Legislature—Citizens Gather.

Peoria, Ill., June 27.—With a general denunciation of corrupt methods alleged to have been practiced in the Legislature of Illinois of recent years, 300 citizens from all parts of the State assembled today and effected a temporary organization to repair "the break down" of representative government.

Senator Jonathan P. Bourne, Jr., of Oregon, addressed a large assemblage tonight, explaining the Oregon method of electing United States Senators.

Senator Bourne charged that efforts had been made at the time of the Senatorial primary election in Oregon to "dishonor the State and its public service."

"During the session of the Legislature," said Mr. Bourne, "a former government official, and assistant to the chairman of the Republican National Committee, appeared in Oregon, and I am informed, promised Federal appointments to legislative members if they would disregard their statement No. 1 pledges to the electorate.

"The effort was made by the officers of the law to create the impression that by reason of this person's relation with the chairman of the Republican National Committee during the National campaign, he would be able to deliver these promised appointments in case the No. 1 subscribers sold their honor and betrayed their trust."

"Statement No. 1 pledge to which a legislator may subscribe provides that he shall always vote for that candidate for United States Senator who has received the largest number of votes for that office at the general election."

Speaking directly to the people of Illinois, Senator Bourne said: "Whether you want popular election of United States Senators in Illinois is for you voters to determine, but I warn you that any half-way or compromised system which places party above the entire people will result in dissatisfaction and probably corruption. If you wish to destroy the power of the political machine, abolish the convention system entirely. If you wish to establish popular selections of United States Senators, install a system which takes away from the Legislature the right to do more than ratify the act of the people at the general election."

CHARLTON PHYSICAL WRECK.

Young Wife Murderer Verges on Collapse—No Word From Italy.

New York, June 27.—Although word comes from Rome that the Italian government has decided to ask for the extradition of Porter Charlton, the young wife murderer, the Hudson county, N. J. authorities, who are detaining him as a fugitive from justice, have received no advices from the State Department at Washington concerning the steps this government will take.

Charlton's arraignment has been set for tomorrow, but it was understood tonight that his lawyer, R. Floyd Clarke, will ask for an adjournment. This probably will be granted.

Meanwhile the State Department will likely make known its desires, and unless any proceedings interfere, Charlton will be turned over to the Federal authorities if they decide to grant extradition.

The young prisoner is still in a highly nervous state, verging on mental and physical collause. He eats but little and alternately paces the floor of his cell of attempts to read.

BROWNE JURY STILL OUT.

Will Determine Case of Legislator Charged With Bribery.

Chicago, June 27.—Eighty hours and no sign of a verdict. That was the story tonight of the jury which is considering the case of Lee O'Neil Browne, Democratic minority leader of the Illinois Legislature, charged with bribing C. A. White to vote for William Lorimer for United States Senator.

Not a word came from the jurors. The 12 men already have established a new record in Chicago as "endurance jurors." When Judge McSurely went home last night, he observed his plan not to interfere with the jury until next Friday. Then, if he finds it is hopelessly divided, he will discharge it.

E. E. POWELL NOW ON TRIAL

(Continued From Page One.)

some time during the morning session tomorrow. Miss Powell told a thrilling story of the efforts on the part of the family to conceal the fact that her father was mentally incompetent, a fact which she stated had been evident to members of the immediate family for years past. Still more thrilling was the story she related of the acts of her father immediately following the assault on the three men. The old man walked to and fro in front of the yard on the street, gun in hand, mumbling threats and curses until fortified behind a tree on the opposite side of the street Mr. Richard Kitchin, a brother of one of the injured men, began firing at the defendant. Powell, according to the testimony of the daughter, stepped behind another tree and exchanged seven shots with Mr. Kitchin and then fled into the house, where he surrendered after having stated that he would not give up until assured that he would be protected and that the law would be allowed to take its course. The case will last for some time and an able array of talent is employed on both sides.

A hard fight is expected.

Another Account.

Warrenton, N. C., June 27.—The jury was selected today which is to try E. E. Powell, Sr., for the murder at Scotland Neck, last March of C. W. Dunn, chief of police, and Powell's daughter testified in her father's behalf.

Her evidence today brought out the first that has been known in regard to a duel, which she said took place on the day Dunn was shot between her father and State Representative Kitchin, who was with the chief of police and State Senator Travis at the time of the tragedy. She declared that her father had been insane for the past three years and periodically so for eleven years.

On the day of the shooting she said that Kitchin shot twice at her father after the latter had killed Dunn and wounded Kitchin and Travis, her father returning the fire. Armed neighbors, she said, surrounded their home, this being the reason why her father refused to be arrested.

When Powell shot and killed Chief Dunn, he dangerously wounded State Senator E. L. Travis and Representative A. L. Kitchin. Senator Travis is still in a hospital in Richmond, but may be able to come to Warrenton tomorrow. Powell was taken seriously ill soon after the shooting.

Today the accused man came into court convalescent from an illness which had promised to make a trial unnecessary. The other victim, Kitchin, was in court comparatively well again, and his brother is appearing as one of the prosecuting attorneys.

The jury was drawn quickly from a special venire of 150 names. The plea of insanity of years standing will be in the defense.

TAFT AUTO INJURES MAN.

Laborer in Serious Condition at Beverly—President's Message.

Beverly, Mass., June 27.—The serious condition of Michael Thisthwolla, an Italian laborer, who was struck today by an automobile operated by Robert Taft, son of President Taft, has caused a hurried change in the plans of the Taft family, who were preparing to depart on the Sylph for New London tomorrow to attend the Harvard-Yale regatta Thursday. Instead of attending the races the family will remain in Beverly unless there is an unexpected change for the better in the man's condition. The report from the Beverly hospital tonight was that he has only a slight chance of recovery.

Dr. S. J. Mitter, of Boston, sent at the request of the President, arrived here late this afternoon and he is working with the hospital authorities doing all that can be done for the injured man.

Robert Taft is badly broken up over the affair and spent much of his time this afternoon at the hospital.

Chief of Police Ferguson has received instructions through the President's attorney to see that the injured man is given every possible care and attention until his arrival when he will take care of the matter himself. President Taft will arrive in Beverly early Wednesday morning.

Washington, June 27.—President Taft was greatly distressed when he learned through the Associated Press dispatches of his son's unfortunate accident at Beverly, Mass. He immediately sent a long telegraphic message to his son which is said to have contained instructions to do everything possible for the injured man. The following telegram then was sent to an old college friend of the President:

"Samuel Carr, 96 Ames Building, Boston, Mass.

"By an unfortunate automobile accident at Beverly my boy Robert struck a street laborer, fracturing his skull. He is at Beverly Hospital. Will you not call up by 'phone the best surgeon in Boston and have him visit the hospital at once and tender services to the resident physician and do all he can for the injured man."

The President then sent a personal telegram to the injured man, expressing his profound regret over the accident and conveying to the victim his earnest wish for a speedy recovery

TWO PERSONS KILLED.

Central of Georgia Freight Struck Trolley Car.

Macon, Ga., June 27.—Two persons were killed and three others injured, two fatally, when a Central of Georgia freight train struck a touring car near Monticello this afternoon.

The dead: Mrs. A. C. Freeman, Arcadia, Fla.; A. C. Freeman, Jr., Arcadia, Fla.

The injured are L. L. Camp, Arcadia, internally injured, probably fatally. Dr. J. L. Robie, Monticello, Ga., injured internally, arm broken, probably fatally; A. C. Freeman, Arcadia, badly injured about head.

All of the occupants of the car except Dr. Robie were on a tour from their Florida home to Kentucky. A stop was made at Monticello to visit relatives and this afternoon they took Dr. Robie out for a spin. The train struck the car at Kelley's Crossing, where a high embankment made it impossible for them to see the approaching engine and cars until it was too late. Engineer Dunbar of the freight applied the emergency brakes and sounded the alarm but the automobile was knocked high into the air, Mrs. Freeman and her son being badly mangled and the others narrowly escaping instant death.

The injured were brought here and placed in a hospital with the exception of Dr. Robie, who was removed to his home. It is feared that Dr. Robie and Mr. Camp will die.

New York, June 27.—Louis Levine, head of the so-called Arsenic Club," which exacted blackmail by poisoning horses, was sentenced at Brooklyn today to not more than 15 years and not less than 7 years in the State prison. Five others are under indictment

S. S. S. CURES OLD BLOOD TROUBLES

The only possible way to cure Contagious Blood poison is to remove the cause by purifying the blood. This is just what S. S. S. does; and it is the only medicine that absolutely and thoroughly cleanses the circulation of every particle of the germs and virus of the disease. Mercury, Potash, and other strong minerals are often used in the hope that such powerful treatment will kill the germs, but this can not be done, and when the mineral medicines are left off the trouble always returns with its aggravating symptoms of ulcerated mouth and throat, skin eruptions, falling hair, yellow skin splotches, swollen glands, and often running sores. The ability of S. S. S. to cure Contagious Blood Poison comes from its unfailing blood-purifying properties. It goes into the circulation and removes every trace of the infection, makes the blood rich and healthy, and leaves no dregs of the virus to break out later on. S. S. S. does not contain a particle of mineral in any form, but is made entirely of roots, herbs and barks each of which has a direct and specific action in cleansing the blood. In addition it contains the extracts of certain botanical herbs which make it the finest of all tonics, which is a necessary quality for a medicine in curing Contagious Blood Poison. Home Treatment book, containing much valuable information and instruction to be found nowhere else, will be sent sealed and post paid, free to all who write and request it.

Mexican MUSTANG LINIMENT

An unfailing remedy for the ills of your Livestock and especially valuable in cases of Caked Udder and Sore Teats in Cows.

Saves Loss in the Dairy.

LYON MANUFACTURING CO.,
BROOKLYN, N. Y.

GENTLEMEN:—It seems to me among your claims as to the efficacy of **Mexican Mustang Liniment** you hardly give prominence enough to its wonderful curative power on inflamed and caked udder in cows. I have used it for two years in my stable and since I began its use have not had a case which was not relieved by a few applications. A thorough bathing of the udder with hot water followed by gentle and persistent rubbing in of the "Mustang" will, I believe, cure any case, leaving the teats in good order—unless suppuration has already begun. If all others in the dairy business knew this it would save much worry and loss. Respectfully,

MRS. A. I. YOUNG,

COTTON MARKET RULED STEADY

Sentiment Rendered Rather Bearish by General Market Conditions—Close at Decline of Four to Ten Points—Failures.

New York, June 27.—The cotton market was quiet today, but while local sentiment was rendered rather bearish by a weather map, a weak stock market, and unfavorable trade advices from abroad, the new crop received support from spot interests and after an early decline the market ruled generally steady. The close was steady at a net loss of 2 to 9 points. The market opened steady at a decline of 4 to 10 points in response to lower Liverpool cables and reports that two small mills in the Lancashire district had failed.

There was little foreign selling here in keeping with the lower cables and the reports of better weather in the South were accompanied by a few Southern selling orders in the late months while it looked as if Wall street and Western longs were liquidating a little old crop cotton, but after easing off to a net decline of 9 to 12 points the market seemed to be receiving better support. There was nothing to indicate that any long lines of consequence were covering on the market, and with the showers in the Southwest considered by many as too light to materially help the drouth situation early sellers became uneasy enough to cover. The demand from this source evidently found very little cotton offerings during the later trading and prices rallied to with five or six points of Saturday's finals on the active months with the close well up to the best on these positions. The buying by spot houses during the day was attributed to hedging against future mill requirements, although some of the private cables reported that Manchester selling hedges in Liverpool against stocks of yarns. Southern spot markets as officially reported early were unchanged to 1-8c lower. Tomorrow will be the first July notice day in the New York, but it is not expected that the tenders will exceed 10,000 or 15,000 bales.

Receipts of cotton at the ports today 2,703 bales against 6,098 last week and 3,686 last year.

For the week 25,000 bales against 23,318 last week and 31,138 last year. Today's receipts at New Orleans 369 bales against 1,522 last year and at Houston 1,392 against 1,054 last year.

Spot cotton closed dull, ten points lower; middling uplands 15.00; middling gulf 15 25. Sales 1,169 bales. Cotton futures opened and closed steady.

COTTON MARKET STEADY.

Small Liverpool Failures Without Effect—Downward Trend.

(Special Star Telegram.)

New York, June 27.—The market while steady, has been easier with the general news from Texas relieving the situation and a consequent greater tendency to view the crop optimistically though the sentiment is somewhat mixed. The weakness of the stock market has an influence, but the two small failures in Manchester were without effect.

The general trend has been downward on small trading with the old bulls the chief support of the market. While good reports predominate private advices from Texas say that the plant is small.

INFLUENCED BY BEAR PARTY

Stock Market Underwent Mood of Depression Yesterday—Rumor of Morgan's Death for a Purpose—Conditions.

New York, June 27.—The stock market underwent a mood of depression again today and prices subjected to a severe shrinkage on a smallness of actual transactions out of all proportion to the amount of the declines. There was a suspicion, among other proferred explanations, of a concerted attack by an organized bear party under powerful auspices. The appearance of a rumor that J. Pierpont Morgan had been stricken suddenly with death, which was followed shortly by Mr. Morgan's appearance at his office aroused this suspicion. The disproof of the rumor did not, however, revive the market.

Mr. Morgan's re-appearance in Wall street was cited, in another way as a hypothecated explanation of the market's weakness as due to disappointed speculators, who had waited on his return from abroad with the idea that it would foment an active period of rising prices of stocks. The grounds on which this supposition had been formed were the reports that he had enlisted large amounts of foreign capital in the purchase of American securities, that he had secured an agreement with foreign copper producers to cooperate with American producers in cultailment of output and that he had assured the listing of United States Steel on the Paris Bourse. From these reports and from the diligence of his banking house in getting assents of freight shippers to the advances in rates asked for by the railroads, it had been inferred by a party in the speculation that the Morgan party were looking to higher prices for stocks.

Out of this situation an advantage is supposed to have been sought by a bear party to press an attack on the market.

Outside the realm of pure conjecture, there was not much to throw light on the pressure of stocks for sale and the lack of demand. Railroad traffic officials reported a well sustained volume and a hopeful sentiment on account of confidence that rate increases would be allowed. The call money market showed no disturbance from the approach of the July settlements.

The severity of the day's decline gave rise to the inevitable uneasiness, but specific rumors even of financial difficulties were not heard. Last prices were the lowest of the day, Union Pacific and Reading showing losses of over 4 points, C. & O., 3 1-2, and the active list generally from 1 to 3 points.

Bonds were weak. Total sales par value $1,850,000. United States bonds were unchanged on call. Total sales today 753,400 shares, including Amalgamated Copper 42,700; Sugar 1,400; Tobacco 100; A. C. L. 300; C. & O., 19,800; L. & N., 1,400; N. & W. 1,700; Reading 161,600; Sloss-Sheffield 200; Southern Pacific 47,600; Southern Railway 1,200; Southern Railway preferred 900; Tennessee Copper 600; Union Pacific 109,100; U. THE GRAIN MARKET.

Chicago, June 27.—Dollar wheat fascinated speculators today. Every future delivery closed here this afternoon above that mark. Before the beginning of alarm about the effect of drought on the spring crop the price was in the eighties—well under 90c a bushel. Latest trading was at nearly the top figures of the day and showed a net gain of 1 3-8 to 2 1-8 as compared with Saturday night. In decided contrast, corn finished 1-8 to 1 1-8 down, and oats 1-2 to 5-8 to 5-8 to 3-4. It was a ragged wind up in provisions, all the way from 2 1-2 to 5c decline to 25c advance.

Cash wheat closed: No. 2 red 1.00 3-4 to 1.01 1-2; No. 3, 98 to 1.00 1-2; No. 2 hard 99 1-2 to 1.01 1-2; No. 3, 95 1-2 to 99 1-2; No. 1 northern 1.00 1-2 to 1.11 1-2; No. 2 do 1.03 1-2 to 1.06 1-2; No. 3 spring 1.03 1-2; durum 78 to 88.

Situation in Nicaragua—Government Forces Move.

San Juan Del Sur, Nica., June 27.—According to reports reaching here the town of Acoyapa, in the department of Chontales, has been captured by the revolutionists. The announcement is also made that the Port Ubaldo, on Lake Nicaragua, has fallen into the hands of General Mena's men. The government has sent a strong force to re-occupy the towns.

Special telegraphic instructions have been forwarded to the governors of the various departments to give particular attention to the protection of foreign interests, in order to avoid the slightest pretext for complaint. A forced loan of about $200,000 has been levied.

Washington, June 27.—"The entire Atlantic coast, with the exception of Bluefields is in our control." This was the message from President Madriz, received here tonight by his representative in this city, Dr. Luis F. Corea. The latter scouted the reports of the revolutionists having made advances in the interior of the country and expressed strongly his disbelief in the message that they have captured Acoyapa.

Bluefields, Nica., June 27.—General Francisco Altschul, the Nicaraguan consul at New Orleans, has made an offer to the provisional government to withdraw the steamer Venus from the Atlantic coast if General Estrada will guarantee all the properties of Zelaya and the payment of $50,000 in gold to reimburse the amount paid by Zelaya on the Emery claim. General Altschul states that he is acting as special agent for Zelaya.

General Duron is preparing to attack the Madriz forces at Pearl Lagoon, in order to capture the new custom house established there and mentioned in the decree which Dr. Irias issued a day or two ago.

EIGHT FLIGHTS MADE.

Wright Bi-plane Stunts Featured Aviation Meet.

Montreal, Que., June 27.—Eight successful flights were made by heavier than-air machines at the aviation park this evening, the feature of the day's performance being the work of the four Wright biplanes. Each of them was in the air today for periods varying from five to 35 minutes.

The longest flight was made by Ralph Johnston, the former trick bicycle rider, who went through an amazing series of spectacular tricks. He was up 35 minutes, soared to a high altitude, came down again, dipped his machine, made quick turns and rocked the machine from side to side in a way that recalled his dexterous handling of a bicycle.

The Wright machines carried off the honors of the day for the greatest altitude flight, the longest flight and the fastest flight. Walter Brookins claimed he reached a height of 3,500 feet according to readings of an instrument on his machine.

He landed perfectly in front of the stand. La Chapple, also in a Wright 40 horse power machine, made the swiftest flight, circling the course twice in the three minutes, 39 seconds, the total distance being about 12,100 feet.

De Lesseps in his light Bleriot monoplane did the same two turns in 4:35.

"THIRD DEGREE COMMITTEE."

Select Committee Divided for Work in East and West.

Washington, June 27.—The select committee of the Senate appointed to investigate the coercive methods of the courts and police departments, known as the "third degree" committee, will be divided into two sub-committees for the investigation of conditions n the East and West respectvely. The full committee met today and decided upon a division of the work. Messrs. Brandagee, Borah and Overman will cover the Eastern States, and Messrs. Borah, Stone and Brown the Western. Both sections expect to take up the work later in the Summer, probably some time in July. Among the cases which it is intimated may be investigated are the Sayler case of Atlantic City, and Perrin case, of California.

THE SOUTHERN NATIONAL BANK

MURDERER OF TWO DEFIANT TO END

(Continued From Page One.)

er be known.

The children tonight are cared for by women of the neighborhood. Mrs. Bostwick and one other child, who were forced to leave home Friday, did not go back there tonight.

Many acts of heroism were recorded during the bloody siege, most notable among these being that of Sheriff McInnes. Seeing his Deputy T. C. Bass fall and thinking he was mortally wounded, Sheriff McInnes rushed from cover and took Bass to a place of safety, and in doing so received the wound which caused his death. He then proceeded to a neighboring telephone and attempted to communicate with Adjutant General Scott at Atlanta. He was unable to talk, however, and in whispers dictated the message which caused the Adjutant General to order out the troops.

Bostwick literally ..ed with his "boots on" and not un.. his ammunition, which had been replenished by his forcing a child to face the fire of the mob and take a pistol and cartridges from the body of one of the dead officers, was exhausted, did he cease firing.

TROUBLE IN MISSISSIPPI

Posse After Negroes Charged With Murder of White Man.

Jackson, Miss., June 27.—Advices tonight from Simpson county, the scene of a threatened racial conflict yesterday, following the killing of Luther Buckley, a white farmer, by a trio of negro fugitives, and later the shooting to death of one of the negroes by a posse, state that normal conditions are fast being restored and further bloodshed is not anticipated.

According to the most authentic reports from the remote section where the killing occurred Buckley was one of a posse searching for Harrison and Robinson Jones, brothers, and Jim Brady, negroes, wanted in connection with an attack on a white farmer Saturday night when he was fired on from ambush and killed. The posse later killed Harrison Jones but the others are still at large.

Posses, however, are still searching the woods and snould they be apprehended will probably be lynched.

C., June 28—Among the recent transfers of property in this city nas been the purchase of a lot on highland street by the American Tobacco., from the Rocky Mount Brick Co., and it is the intentions of the purchaser to have erected a storage warehouse to be used in connection with their present plant. The plans of the tobacco company are to erect a storage warehouse with a capacity of between 1,000 and 1,500 hogheads. The lot purchased is near their present plant and is within easy access of it. This new storage warehouse will mean greater things for this firm in this city and is in keeping with the progressive move begun by them a number of years ago.

DEATH AT TEACHEY.

Only Child of Mr. and Mrs. H. D. McMillan Passes Away.

(Special Star Correspondence.)

Teachey, N. C., June 27.—At 11 o'clock today Mr. and Mrs. H. D. McMillan were stricken with grief when the icy fingers of death fastened upon little Hattie Mary and claimed her as a victim of death. She was 10 months and 27 days old when the end came. She being the only child makes the grief all the more heart rending. The sympathy of the entire community goes out to these whose hearts are now torn and bleeding. Her rest is sweet on Jesus' breast.

POLITICS IN ORDER AT SAGAMORE HILL

(Continued from Page 1.)

called out. He raised his axe and whacked at the tree with a hard, true stroke. In another minute the tree quivered and then fell.

"Great exercise," said the Colonel as he sat cross-legged on the fallen trunk, his axe across his knee. "It's about the only exercise I get out here. I have just been in the hay field. I spent all the morning in going through this morning's mail," he continued. "I am willing to work as hard as any man, but I like to get somewhere. It reminds me of the famous cat which fell into the well and climbed up one foot every day, only to fall back two feet at night. The volume of mail has become so great that I left word at the postoffice to have it all sent back to my editorial office in New York.

The Colonel agreed definitely today to speak before the Milwaukee Press Club while on his Western tour which begins the last of August. He also decided to make another trip early in October, when he will speak to the Knights of Columbus, of Peoria, Ill., on October 12th, and in Atlanta, Ga., on "Uncle Remus" day, which he said he thought was October 17th.

Colonel Roosevelt was asked about the report published today that an operation on his throat was to have been performed this morning. He laughed aloud in his boyish way.

"Why, the first I heard of it," he said, "was when Senator LaFollette arrived here and told me that he had read that report. I have never even heard of the doctor who it was said to perform this operation. How do you suppose such stories about me become current? You can see for yourself that not only is there nothing wrong with my throat, but that I am in perfect physical condition."

As he sat there, vibrant with vitality, with not a sign of fatigue after his violent exercise, he added that he had had no trouble with his throat since his return from abroad, or, in fact, since the time King George's physician treated him.

Getting back to the LaFolette conference, the Colonel wished to make it clear that he had not "summoned" Senator LaFollette. Mr. LaFollette and Senator Burkett and Representative Madison, he said had all wired him asking if they might come to Sagamore Hill.

It was so late in the morning when he found the telegrams amid the day's grist of mail and wire messages that although he telegraphed for the three Insurgents to come, only Senator LaFollette received the reply in time to reach here today. The others he expects soon.

As he finished this explanation, the Colonel took his axe again. "One more, and I'll quit," he said. All the way down the hill to the gate the whack of the wood chopper's steady blows could be heard resounding through the woods.

TEX RICKARD WORRIED.

No Truth in Report Fight Will be Called Off.

Reno, Nev., June 27.—Promoter Tex Rickard of the Jeffries and Johnson fight was greatly worried tonight by the receipt of a telegram from a Chicago newspaper man stating that it was rumored there that the fight would positively be called off. "Get busy," concluded the message, and Rickard inferred that the rumor had been taken seriously, and would be published broadcast.

"There is absolutely no truth in this new rumor of State interference," Rickard said. "I have the personal assurance of Gov. Dickerson that he will not interfere. I can't imagine how such a report could have reached Chicago. I know it is not true, but I am afraid that the constant repetition of such rumors will prevent many persons from coming to Reno." Gov. Dickerson is expected here tomorrow.
